ROOM PACKAGE & SITE SCOPE

Insulated enclosure. Defined supply.

THE ROOM PACKAGE

100 mm insulated panel enclosure on a steel skid, with a raised access floor, suspended ceiling and insulated steel entrance door.

The design shows space for two 42U racks. Equipment and systems supply require separate agreement.

Illustration shows the enclosure only. Source design Rev 00, 6 October 2026, issued for review.

Systems and access arrangements

Racks, UPS, electrical / ELV systems and fire protection are subject to an agreed supply and installation scope. Confirm the entry landing, stairs and final connections when ordering.

CONTRACTOR RESPONSIBILITY

01 **Concrete base**

02 **Air conditioning**

03 **Earthing**

04 **Transportation**

Final materials, dimensions and scope follow the agreed quotation and project requirements.
